

## **ENG110: Freshman Composition**

### **Student Remarks from the Faculty Evaluation Survey**

Narrative comments:

*"I felt as though the curriculum choice was very poor. I was dealing with my opinions on subjects for the larger portion of the semester. I already knew my opinions. What I need is writing disciplines to accurately tell others my opinion in written form. Focus more on mechanics rather than feelings and opinion. I felt as though I were a lab rat being tested on this new curriculum."*

*"I felt like I was part of an experiment. He did not seem sure of what he was supposed to do."*

*"Knew about the material. Made it interesting to me. He needs to be more blunt in his opinions on papers. Other than that great teacher."*

*"I think Mr. Mueller did a great job in leading our class. He was prompt getting to class and giving our assignments back. He always offered extra help if we needed it one on one. I feel like I learned a great deal this semester and plan to take his 225 class."*

*"I would like to see the elimination of all those 'prescribed lengths.' Cut the journal entries to 2 pages a week. Besides that it was a good class and a good job teaching."*

*"Derek seemed to be able to relate to all of us because he is still in school. He made class a lot of fun, but yet we learned what we were supposed to as well. I would recommend him to teach any Eng. Class."*

*"I learned a lot in this class. Not only was I taught, but I was able to help myself with the information given to me. I always had constructive criticism. The structure of the class was very effective."*

*"I found the structure of the class to be very beneficial as a freshman student. I am satisfied with the development of my writing skills."*

*"His laid back approach allowed us to communicate well. He also gave us assignments that you really had to look at closely. He really made you think. He did a great job."*

*"Mueller did a very good job with this class. He was an understanding and fair teacher. Was also very helpful in making us understand stuff."*

*"I think overall Derek did a good job. Kept the class fun but we also learned a lot."*

*"I think he did a good job. That's all I have to say about that."*

*"I think your teaching methods were good and helped us to understand the subject matter, you always seemed to be prepared for class, showed a lot of concerns for the students as individuals."*

*"The only weakness about this class was the lack of participation between students at times. I think it would be more helpful in the future if the teacher would call on people, occasionally, to get them to participate more."*

*"I like the fact that he allowed us to make our own choices and treated us with respect. He did not act as if this were a required class."*
